

LINN

KEY FEATURES

- Soft dome, high-frequency driver with neodymium magnet that provides an exceptionally clean and open sound
- Custom polypropylene, midrange and bass driver units with a strong die-cast chassis and dual field shaping magnets that produce a detailed midrange and deep, tight bass response
- High-density cabinet construction and high specification crossover ensure accurate reproduction across the full frequency range
- Fully shielded drive units enabling the Espek to be placed close to a television, monitor or computer without causing picture interference
- Versatile aktiv/passive link plates, provide several crossover configurations that can be changed effortlessly

The new Linn Espek is a stunning, powerful, floor-standing loudspeaker designed to give thrilling, no compromise, pitch accurate performance in two channel and multi channel applications. The design of the Espek optimises the relationship between cabinet geometry and construction, drive unit configuration, cross-over frequency relationships and aerodynamic design of port exits to maximise performance.

The Espek's profiled cabinet construction and fully shielded drive units provide a variety of positioning options. Utilising the same Linn designed drive unit configuration, the Espek provides perfect tonal match and dispersion patterns with the Linn Ekwil loudspeaker enabling seamless integration in home entertainment systems.

The Espek can easily be configured as a passive or aktiv loudspeaker. Two removable, reversible link connection boards (patent pending) on the rear of the cabinet enable the Espek to be simply and quickly configured for either single-wired passive, bi-wired passive, tri-wired passive, or aktiv operation.

The Espek loudspeaker comes complete with its own base stand and is available in attractive maple, black ash and American cherry finishes from qualified Linn outlets worldwide.

ESPEK

SPECIFICATION

A stunning new, powerful, floor-standing loudspeaker for passive and aktiv playback

ESPEK

TECHNICAL SPECIFICATION

A stunning new, powerful, floor-standing loudspeaker for passive and aktiv playback

| | | |
|---|--------------------|---|
| ■ | Introduced | 2001 |
| ■ | Volume | 42 litres |
| ■ | Frequency response | 30Hz - 20kHz +/- 3dB |
| ■ | Input impedance | 4 ohms |
| ■ | Amplifier power | Minimum 60W into 4 ohms |
| ■ | Efficiency | 90dB for 1W at 1m(kHz) |
| ■ | Magnetic screening | Fully screened within 3 gauss from the cabinet edge |
| ■ | Crossover options | Treble level can be reduced by 1dB on the crossover board |
| ■ | Wiring options | Single-wire passive, bi-wire passive, tri-wire passive, tri amplified Aktiv |
| ■ | Size | H 980mm x W 170mm x D 320mm H 38.6 inches x W 6.7 inches x D 12.6 inches |
| ■ | Weight | 21.5kg / 47.4lbs |
| ■ | Finishes | Black ash, American cherry or maple |
